# THE ADITYA BIRLA INTEGRATED SCHOOL

Grade  
DLP  
Children's Day  
Celebration

## THE ADITYA BIRLA INTEGRATED SCHOOL

Grade - 1  
Activity Based  
Learning

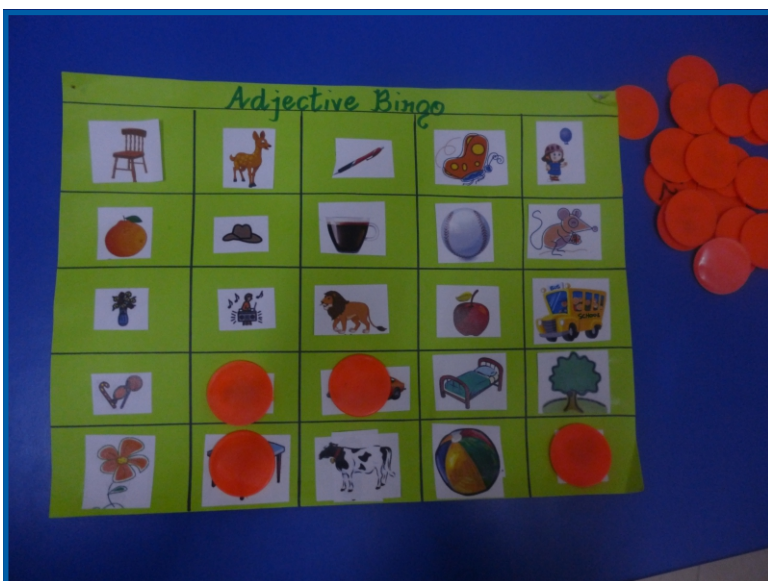

### English

#### The Rooks - Who am I?

This was a colouring activity based on the theme of butterflies. The children coloured different types of butterflies through the course of the lesson and finally they were displayed on a paper branch in class. A bottle pupa was also made to show a butterfly emerging from it. This helped the children learn about the life cycle also.

#### Adjective - Bingo

This activity was conducted to reinforce the topic of Adjectives. The teacher used describing words and the children had to place a coin on the noun that fitted the description. The child to get a line of nouns will call out bingo. This will help revise Adjective vocabulary in a fun way.

## THE ADITYA BIRLA INTEGRATED SCHOOL

Grade - 2, 3

Activity Based Learning

### English Summer Time

A colouring activity on a water bottle depicting all the summer things mentioned in the poem was done. The children were also taken for a field trip to Chowpatty beach to enjoy the fresh breeze, warm sand and cool water. They later did a follow up activity by sticking the shells they collected on the beach as well as making and sticking paper boats.

### ICT

#### Input- Process - Output

Students learnt the sequence of input, process and output of a computer through 'cake baking activity'.

# English

Lights, Camera, Action

Grade - 4

Activity Based Learning

In this activity the students were expected to imagine that they are shooting for a film. Each of the student was then given a verb and as the other students called out 'Lights, camera and action' they were expected to act it out to their classmates. The activity was done to learn different verbs. The action the children performed with each verb helped them with better recall of the same.

Students learnt the sequence of input, process and output of a computer through 'cake baking activity'.

## Commerce

“Experience is the best teacher”

Grade - 7  
Field Trip

Grade - 8  
Activity Based  
Learning

The students of grade 7 visited wholesale and retail outlets to understand their specific functions and analyse the difference between the two. They came away learning the concepts in a fun way.

## Economics

Cost and Revenue

The students bought the raw materials, made the sandwiches, calculated the cost per sandwich, marked it up to a price and used their skills to sell them to the students & teachers of Senior School.
