THE ADITYA BIRLA INTEGRATED SCHOOL

English The Birthday Present

Grade - 1, 3
Activity Based
Learning

The children played party games mentioned in their worksheets and received a fun present akin to the Scrabble board present mentioned in the lesson.

Math Division (Grouping)

The students were being taught the concept of grouping using fruits. The fruits were cut and distributed or divided among 5 people. The strawberry was cut into 25 pieces and so the students had to divide 25 pieces among 5 people. They had to find out how many pieces of strawberry each one will get. Concept of grouping or division becomes easier and fun when concrete objects are used.

Art Festival

Conclave

The Conclave is a platform for students to showcase their knowledge on a particular subject, to an audience closest to them- their parents, teachers and fellow students.

This year, the students of grade 8 and Secondary Level 1 conducted an Art Festival based on what they have learnt in Painting – a subject that was included just this year as a part of their NIOS curriculum. It included aspects of Indian art and western art appreciation.

Mrs. Birla's presence at the event inspired the students and teachers and motivated them to excel further.
