THE ADITYA BIRLA INTEGRATED SCHOOL

Grade - 1, 2
Activity Based Learning

The craft activity consisted of a fox's mouth hand puppet. It represents the sly hungry fox who ate up all the unsuspecting birds at the end of the story. This activity aided their learning by bringing to life one aspect of the poem which revolved around the birds who got lured into the trap set by the fox. The children mimicked the hungry fox using the puppet and pretended to eat up their friends.

A fun animal themed party with games and snacks

Children played different games like animal scavenger hunt, pinning the donkey, catching the snake's tail etc... they also indulged in yummy animal shaped snacks which they shared with their friends. This included a handsome hummus and carrot lion, Gummy Bears, Hello Panda biscuits etc... it was a fun filled finale to days of learning!

Activity Based Learning

English

Poem - The Rooks

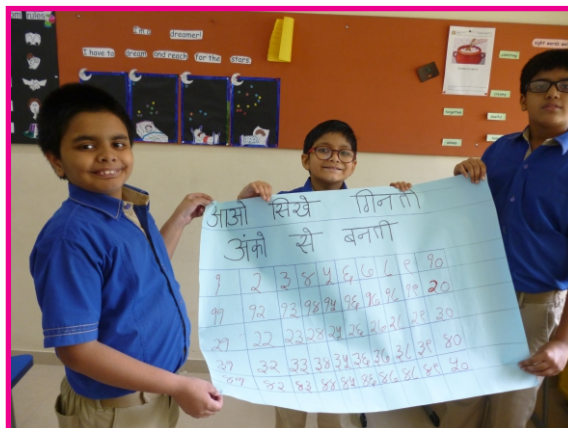

This activity was conducted to reinforce the new vocabulary learnt and to demonstrate how birds construct their homes. The children were given twigs and sticks and were helped to build nests themselves which was the main plot of the poem.

"Let's explore- Beyond the Classroom" Simple and Electronics Machines

HindiNumbers

Number chart prepared in Hindi, while singing song on 'numbers'.

Hindi Speaking Activity Market Day

Students were very keen to sell their toys with the fake money given to them. This activity was conducted to give the children an experience to speak in Hindi.

THE ADITYA BIRLA INTEGRATED SCHOOL

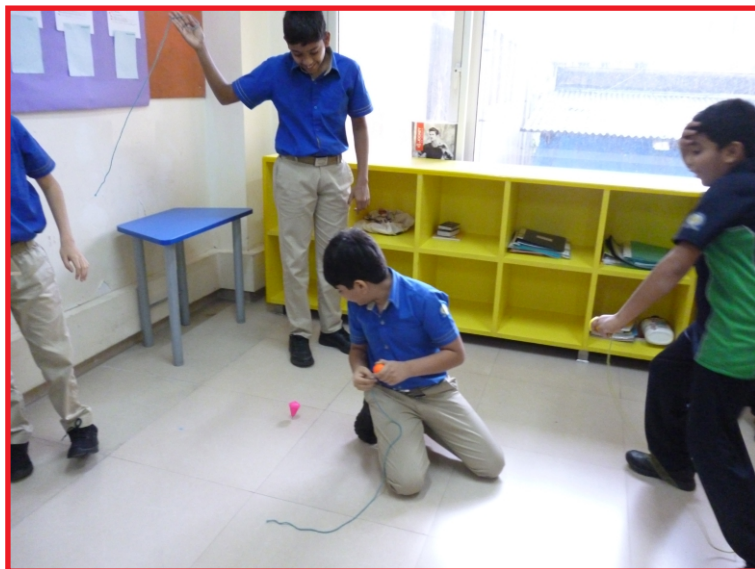

One small tub was filled with water and each child was told to sing the song NAIYA which was taught in class. With this activity they learned the poem and enjoyed puppet making activity.

Grade - 5, 6
Activity Based Learning

Hindi Poem - Naiya

Hindi Indian Games

Students were very keen to play these new games which were played in olden times.

Kancha : A game which increases the aiming and concentration skills.

Lagori : It inculcates team spirit.

Lattu: This game helps to improve concentration and hand eye coordination as well as improves social interactions.

AUCTION SALE

THE PRODUCT FOR SALE

Diary's cover page painted by M. F. Husain.

TABIS INVITES GENUINE BIDDERS TO ATTEND THE AUCTION SALE -

ON JULY 26TH 2019

AUCTION STARTS AT 12:40 PM AND RUNS UNTIL APPROXIMATELY 01:00 PM.

VENUE: ATTARIS, ON THE 5TH FLOOR

THE PRODUCT FOR SALE

Diary's cover page painted by M. F. Husain.

UPSET PRICE =RS. 50,000/-

To teach the concept of an auction sale in business studies, a mock auction was conducted with Secondary Level 1 students, where a "Diary (Cover Page) hand painted by M. F. Husain" was put up for auction. Students participated enthusiastically and in the process learnt new terms like bidding, upset price, reserve price, sale contract, etc.

MINDSPARK Math Program

"We are happy to start 'Mindspark' Math program for grades 1 to 9. 'Mindspark' is an adaptive based online program integrated with school curriculum to improve Math learning levels. Login credentials are shared with the students, as it can be enjoyed by them after school hours. Students are enjoying the program and are looking forward to increase their count of 'Sparkies' to become a 'Sparkie Champ'.
